Tracing the broad outlines of the Wisdom Religion and the Theosophical Movement, *The Key to Theosophy* (1889) covers fundamental principles, and is especially valuable for its extended discussions of what happens after death and an analysis of our inner psychological nature. Its question-and-answer format presents basic and unfamiliar concepts in clear language and as simply as possible. Various objections raised by inquirers are dealt with in a straightforward manner.

Hardcover, 1474 pages

ISBN 0-938998-00-5

Photographic facsimile of the Original Edition

Two volumes bound in one

The Secret Doctrine (1888) unfolds a specific teaching about the nature of the universe and humanity, and is the basic source of the Theosophical teachings in this cycle. As noted in the Introduction, “*The Secret Doctrine* is not a treatise, or a series of vague theories, but contains all that can be given out to the world in this century.” Cosmic evolution is addressed in *Cosmogogenesis* (Vol. I); the evolution and destiny of humanity on this planet in *Anthropogenesis* (Vol. II). In addition, various religious, scientific and mythological systems are examined in the light of these teachings. The Proem, which presents the Three Fundamental Propositions of Theosophy, provides an overview of this vast work.

Hardcover, 722 pages

ISBN 978-0-9898541-0-8

With Index and four Appendices

A verbatim transcription from the original 21 handwritten folios that were the basis of *Transactions of the Blavatsky Lodge*, this is a companion work that neither replaces nor corrects the existing *Transactions*. The *Dialogues* reveal H. P. Blavatsky's broad, penetrating mind, her biting wit, her not-always-gentle impatience with human foibles and her self-deprecating willingness to inquire into ideas and engage the minds of others. Here is HPB direct, with the writer herself presiding over the world's first study class in the metaphysics of *The Secret Doctrine*.

**THE THEOSOPHICAL GLOSSARY 17.00**

Reprint of the first American edition published by William Q. Judge, New York, 1893. Both a devotional expression and a practical guide to the age-old journey on The Path, it is especially clear on the difference between the "Head" and the "Heart" Doctrines, and the necessity to work for the welfare of others. Numerous footnotes further illuminate the text.
